DATASHEET

Damper Interface Panel

EV-101AC / EV-101AC-HBV

The EV-101AC is a dedicated fire and smoke damper interface panel that delivers reliable power and monitoring for fail-safe damper actuators. With built-in self-test functionality and clear status indicators, it simplifies maintenance and ensures dependable system performance.

VERSATILE

The compact panel is designed for flexibility. It can operate as a standalone unit, triggered directly by a smoke detector or fire alarm interface, or integrate seamlessly into an addressable system via EV-DCP-N damper control panel responding to a programmed cause & effect.

INTELLIGENT

Equipped with continuous monitoring, the panel tracks real-time damper position and status with clear visual indicators. The self-test function automatically exercises the damper to verify operation and identify faults.

HOTBOX

For applications requiring an extended survival time, the optional thermal 'hotbox' enclosure provides a fire survival time of 300°C for 90 minutes, independently witnessed by Lloyd's Register

KEY INFO / SPECIFICATIONS

	Interface Panel	Interface Panel and Hotbox
Cable Entries	8 no. M20, 1 no. M25/M32 knockouts	8 no. pre-drilled 6mm dia. ma cables
IP Rating	IP66	IP55
Voltage output	230V AC, 1.25A	230V AC, 1.25A
Voltage input	85-253V AC, 0.4A	85-253V AC, 0.4A
Back-up input	24V DC	24V DC
Operating temperature	-5 to +70 °C ambient temperature	Fire survival of 300°C for 90 minutes
Finish	ABS plastic, RAL 7035 light grey	FabBloc insulating material, RAL 9010 White
Dimensions	H:182mm x W:180mm x D:90mm	H:284mm x W:284mm x D:160mm
Weight	0.9kg	5.6kg (including panel)

SUITABLE FOR:

NATURAL VENTILATION

DAMPER CONTROL

SMOKE CONTROL

VARIATIONS

EV-101AC DAMPER INTERFACE PANEL		
Model Number	**Description**	**Output**
EV-101AC	Damper interface panel	230V AC Output
EV-101AC-HBV	Damper interface panel with hotbox	230V AC Output

ACCESSORIES

Part number	Product name
EV-SD	Smoke detector

SPARE PARTS

Part number	Product name
EV-101AC-PCB	Replacement control board
EV-100-HB-V	Hot box enclosure

ATTENTION: Under the Construction Products Regulations (CPR) it is a legal requirement to use only certified products for smoke ventilation. It is the responsibility of the installer to ensure installations meet the relevant standards.
